Herbert Rosen, President of Trans-West Network Solutions, Presents His Views on the State of the Telecommunications Industry

Leading Providers in the U.S and Canada Listen to Mr. Rosen at Technology Assurance Group's 2007 National Convention

PHOENIX, AZ— March 27, 2007 — Trans-West Network Solutions, a leader in business communications, announced today that the company's president, Herbert Rosen, presented his views on the state of the telecommunications industry during Technology Assurance Group's annual convention. Technology Assurance Group (TAG), a national organization of independently owned telecommunication companies representing over \$350 million in products and services, of which Trans-West Network Solutions is a premier member, held their 2007 TAG National Convention in San Diego in March.

The theme for the convention was "Communicating through Convergence". Telecom professionals from both the United States and Canada listened to Mr. Rosen's views on the convergence of voice and data and its impact on the way businesses communicate. Mr. Rosen proactively participated in a number of roundtable discussions covering such topics as increasing customer profitability, utilizing customer relationship management systems, and understanding personality profiles to manage more effectively.

"Mr. Rosen is very well respected in our industry and it was a privilege to

have him address our group of distinguished professionals," said Dale Johnson, president of Technology Assurance Group. "All of our member companies, strategic business partners, and industry analysts greatly benefited from Mr. Rosen's valuable insight."

"The TAG convention gave us a fantastic opportunity to help our colleagues gain a clearer understanding of the direction of the industry as well as the topic of convergence," said Herbert Rosen, president of Trans-West Network Solutions. "The event also enables us to learn better practices from companies in other geographical locations that we can implement in our business to help our customers improve their profitability as well as give them a competitive advantage."

ABOUT TRANS-WEST NETWORK SOLUTIONS

Trans-West Network Solutions is a member of the Technology Assurance Group (TAG). Established in 1981 and headquartered in Phoenix, Trans-West Network Solutions is a privately held corporation that has grown to over 8,000 customers across the United States. In an industry that sees companies come and go with each corporate merger, Trans-West has been a stabilizing force in an otherwise unpredictable environment. Trans-West prides itself on the ability to adapt and grow with technological advances while maintaining a tradition

of delivering exceptional products and services. This forward thinking brings its business customers a very tangible value — 24x7 Technical Support, Mitel Platinum Elite Dealer, Toshiba Authorized Dealer, Ultrak Authorized Dealer, Inter-Tel Authorized Dealer, Nextel Authorized Dealer, March Networks Authorized Dealer, Dedicated National Account Division and Certified Technical and Marketing Staff.
